

## Project Design Phase-II

### Technology Architecture

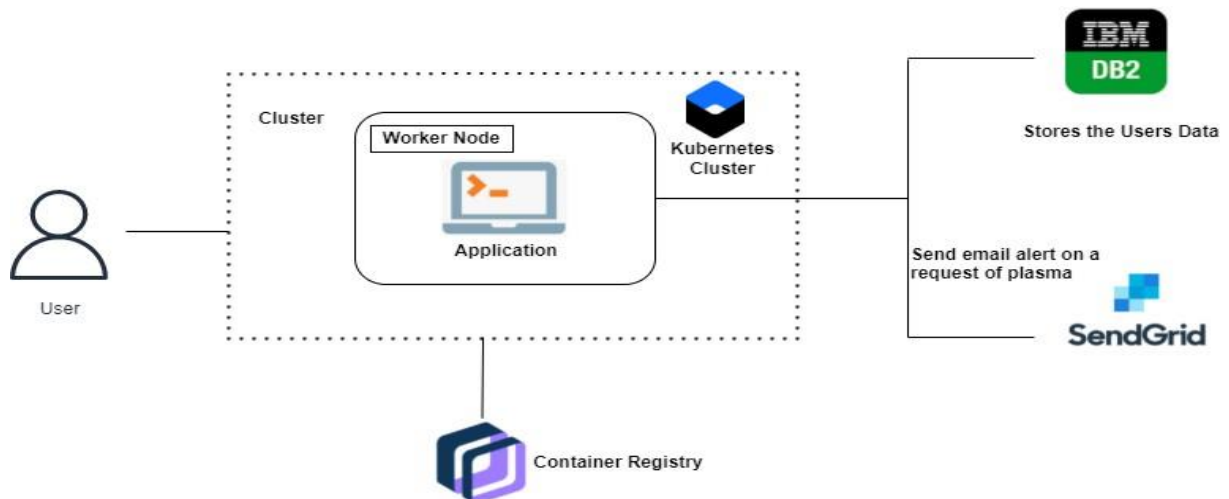

|               |                          |
|---------------|--------------------------|
| Date          | 10 October2022           |
| Team ID       | PNT2022TMID52198         |
| Project Name  | Plasma Donor Application |
| Maximum Marks | 4 Marks                  |

#### Technology Architecture:

Technical Architecture (TA) is **a form of IT architecture that is used to design computer systems**. It involves the development of a technical blueprint with regard to the arrangement, interaction, and interdependence of all elements so that system-relevant requirements are met.

- The user interacts with the application.
- Registers by giving the details as a donor.
- The database will have all the details and if a user posts a request then the concerned blood group donors will get notified about it.
